# PARAMOUNT COLLECTOR

## JANUARY 1977

The winter chills have certainly not chilled the rare coin business as we head into 1977. Last fall the most popular items continued to be Silver Dollars and choice U.S. gold. In this month's Collector you will find both PLUS many other popular items. Our rare gold coin portfolios are back for those who want to put some quality coins away for the long term. RARE coins continue to be one of the best forms of numismatic investment. On the other hand, *bullion* coins (common dates) vary in value strictly according to the precious metals market. Remember, too, rare coins are not nearly so volatile in a downward bullion market.

Please be sure to check page 28 for a SPECIAL OFFER from Paramount.

## SPECIAL PRICE LIST NO. 85

# COMMEMORATIVE HALF DOLLARS OF NEW ENGLAND

Between 1920 and 1936, five of the six New England states had Commemorative Half Dollars issued. These coins were authorized by the U.S. Congress and struck at the U.S. Mint in Philadelphia.

These five coins are:

- 1927 Vermont – commemorates the 150th Anniversary of the Battle of Bennington
- 1936 Rhode Island – commemorates the 300th Anniversary of the founding of Providence by Roger Williams
- 1920 Pilgrim – commemorates the Pilgrim landing at Plymouth, Massachusetts in 1620
- 1920 Maine – commemorates the 100th Anniversary of the Statehood of Maine
- 1936 Bridgeport – commemorates the 100th Anniversary of the incorporation of the city of Bridgeport, Connecticut

For the first time, we make this interesting group of Commemoratives available as a package. All five are in MS-65 (choice brilliant uncirculated) condition – as lovely as the day they left the Mint. And check the mintage figures. While the Mint releases *millions* of the 1976 Bicentennial Half Dollars, these New England Commemorative Half Dollars had mintages in the *thousands.*

| | Net Mintage | Our Regular MS-65 Selling Price |
|---|---|---|
| 1927 Vermont | 28,142 | $120 |
| 1936 Rhode Island | 20,013 | $ 52 |

# UNITED STATES TYPE GOLD COINS

Without doubt, the most widely employed method of collecting U.S. gold coins is by Type as few collectors have the means to collect one of every date and mint in a series.

If you are working on a Gold Type Set or if you have considered starting one, we offer a wide range of prices and grades.

As always, our grading is conservative and your total satisfaction is assured or return within seven days of receipt for a prompt exchange or refund.

Since these are type coins, dates are of our choice. If you desire specific dates, please write or call for prices and availability.

# A Scarce Silver Issue From The Vatican City

# The 1939 5 Lire

## Only 100,000 Minted

The Vatican City, the small Papal State within the boundaries of the city of Rome has had a long and interesting numismatic history. Some of the most beautiful coins ever struck have been the issues of the Papal States and the Vatican. Busts of the Popes, religious designs and the Papal coat of arms have made these lovely coins extremely popular with collectors during the last several hundred years. The 1939 5 Lire is no exception. The strong portrait of Pope Pius XII enhances the obverse and a design depicting Christ in a boat is on the reverse of the coin.

Rarely are we able to offer Vatican City coinage, such as these pieces, in our Special Price Lists, due to the fact that quantities of War year coinage are unavailable in choice condition. Through an unbelievable purchase we were able to acquire a small number of these scarce silver (.835 fine) coins. The quantity is very limited, so we suggest an early order.

## Paramount's Famous. . . U.S. Gold Portfolios

In recent months we've had several inquiries about the Gold Portfolios we once advertised with great regularity. With the price of gold coins much in the news today, many are taking a second look at these coins as a long term investment.

The nice thing about a Paramount Investment Portfolio is: You can practically spend as much or as little as you want! Our expert staff will carefully select coins for quality and previous investment performance. If you have a particular preference, we'll fill your portfolio with the coins you especially want. Each portfolio is not a "grab bag" or random lot of odds and ends, but rather is a selection of high quality coins from our vast 5 million dollar inventory. In every instance, the coins you receive in your portfolio will carry a full 30-day return privilege.

Choose from these portfolios:

Portfolio A — $1000 — Our smallest portfolio contains high grade (EF-40 or better) type coins of various denominations. Naturally, a portfolio of this size will be somewhat limited in the number of coins you receive (*about* 5-7 coins), but you will be receiving properly graded pieces at a *very* competitive price! . . . . . $1000.00

Portfolio B — $2500 — This portfolio opens the door to some genuinely scarce dates. Obviously, if you are collecting MS-65 $3 gold pieces, you wouldn't get very many, but still you would receive a much broader selection of quality gold coins here than in Portfolio A. . . . . $2500.00

Portfolio C — $5000 — Some of the most underrated (in our opinion) gold coins are those individual pieces in the $1000-$2000 range. With this portfolio you'll receive some genuinely rare pieces. If you like rare Charlotte and Dahlonega gold, just tell us and we'll tailor your portfolio thusly! . . . . . $5000.00

Portfolio D — $10,000 — Proof gold coins have been one of the fastest appreciating items in numismatics. In our $10,000 portfolio, you will receive at least one U.S. gold proof coin unless, of course, you specify you want to concentrate on other items. Portfolio D will contain coins of significant rarity and high quality. . . . . .$10,000.00

Portfolio E — $25,000 — This portfolio is designed for the collector or investor wanting only the best available! Proofs, Mint State pieces and high grade rarities. As with any of the portfolios we offer here, the value of the coins (and quality) you receive would cost you substantially more money if you bought each item separately. We guarantee it or return within 30 days for a prompt refund.
. . . . . .$25,000.00

Please Note:

- All portfolios are selected by experts in their field.
- All coins are conservatively graded.
- Each Portfolio carries a full 30-day return privilege. Take time to study each coin. Compare the value and quality we offer with anyone!

Naturally, we cannot guarantee the performance of any investment, but you'll be glad to know that we include only quality coins in these portfolios because in 5, 10 or 15 years from now, you may want to sell your coins and we would hope you give us the first opportunity to buy them back from you!

# 1928 $1 RED SEAL
## The Undervalued Key Note

IMAGINE, a $1 note, printed nearly half a century ago, with a *Red Seal and serial numbers!* This is the 1928 Red Seal Legal Tender note, a very scarce piece of currency that has *everything* going for it:

1. In demand as a *One-Year Type.* Red Seal $1 notes were issued *only* in 1928, making them a key note for type collectors.
2. Extremely small production. The $1 Red Seal is by far *the scarcest regular $1 type note of the 20th century!*
3. Most were originally shipped out of the U.S. for use in Puerto Rico. Few returned, and almost all were lost forever.
4. Paper money collecting is a young and fast growing field. Increased demand may one day make today's price look ridiculous by comparison.
5. These 1928 Red Seal notes are *Crisp New,* with brilliant red colors and the "old style" reverse design so popular with collectors.

Stack the odds in your favor and take advantage of this important opportunity.

TWO WAYS TO ORDER:

1 – 1928 $1 Red Seal, *Crisp NEW* ..... $ 49.50

Or order a ***consecutively-numbered*** portfolio and save:

3 – 1928 $1 Red Seals, *Crisp NEW* ..... $145.00

# 1934 TEXAS HALF DOLLARS

In nearly every Special Price List or Paramount Collector, we offer at least one United States commemorative coin. Over the years, hundreds of our customers have assembled complete Commemorative sets at their own pace, by buying one or two coins per month from us. After completing such a set, you as a collector, will have a real sense of accomplishment and will be very proud to show off your coins to friends — many of whom may not even know what commemorative coins are!

This month we are featuring the 1934 Texas Independence Centennial Half Dollar. The Texas commemorative was authorized by Congress in June, 1933. The initial authorization called for 1.5 million pieces to be struck. Only about 1/5 of this number was struck over a period covering 1934 through 1938. In 1934, only the Philadelphia Mint struck the coins and most of these were melted! The net mintage after the mint melted over 143,000 pieces was a mere 61,463 coins!

If you are just starting (or well into) a commemorative set, why not consider one of these sharply struck lustrous coins at only $45!

1934 Texas Half Dollar, Mint State 65 . . . . . $45.00

4. **Banquo Santander, 1, 5, 10 pesos, January 1900.**

   The Thousand Day War led to a national catastrophy, one of the net results of which was the cessation of Panama from Grand Colombia, at the beginning of the century. During this period the paper money of many private banks was confiscated by the Provisional Government and reissued as National Currency having been overprinted on the backs with a government seal and authorized signatures.

# EARLY 20th CENTURY SILVER TYPE SETS From Russia and The Soviet Union

In 1975, Paramount was appointed the distributor of the proof-like sets of the Soviet Union by the Bank for Foreign Trade of the U.S.S.R. Shortly after we distributed the first Soviet Proof-like Sets, we received requests for earlier Russian and Soviet coinage. Until now, many Russian/Soviet coins were difficult for North American collectors to obtain, but as a result of a *special, limited* purchase from the Bank for Foreign Trade of the U.S.S.R., we can offer you high quality, silver type sets issued between 45 and 80 years ago! These coins span the period of Czar Nicholas II through the Russian Revolution of 1917 and into the early 1930's.

**These Sets Are Available for Immediate Delivery**

## SET I RUSSIA

### The Last Silver Coinage Of The Czars Nicholas II (1894-1917)

Nicholas II (1868-1918), the son of Alexander III, was born in St. Petersburg. During his younger years he served in the Russian military and travelled extensively. In 1891, before becoming Czar, he was stabbed by a fanatic while visiting Japan. Although he survived the attack, this incident helped to further cool relations with Japan prior to the Russo-Japanese War of 1905. In 1894, Nicholas II ascended the throne after the death of his father. He married Alice, Princess of Hesse-Darmstadt, grandaughter of Queen Victoria of Great Britain.

This is an important set because it numismatically represents the last pre-revolutionary coinage of Russia. Nicholas II is featured on the obverse of each of the six silver coins. Included are these denominations.

| DENOMINATION | SILVER FINENESS | DIAMETER |
|---|---|---|
| 5 Kopeks | .500 | 15 mm |
| 10 Kopeks | .500 | 18 mm |
| 15 Kopeks | .500 | 20 mm |
| 20 Kopeks | .500 | 22 mm |
| 50 Kopeks | .900 | 27 mm |
| One Rouble | .900 | 34 mm |

This six-coin set is presented in a custom plastic holder which allows easy display and offers maximum protection for these historic coins. The six coins will grade Fine-12 or better.

Set I ..... $18.50

## SET II U.S.S.R. First Silver Coinage (1921-1923)

Although Czar Nicholas II attempted to improve living and economic conditions in Russia, his methods were generally unsuccessful. During the early Twentieth Century, the War with Japan, World War I, and declining economic conditions led to his overthrow in 1917. Nicholas was sent to Siberia with his family and in July of 1918, they were all murdered by the Bolsheviks in the basement of their residence.

This set of coins is important because it represents the first silver coins struck after the Revolution of 1917. It contains these five coins!

| DENOMINATION | SILVER FINENESS | DIAMETER |
|---|---|---|
| 10 Kopeks | .500 | 18 mm |
| 15 Kopeks | .500 | 20 mm |
| 20 Kopeks | .500 | 22 mm |
| 50 Kopeks | .900 | 27 mm |
| One Rouble | .900 | 34 mm |

These five coins, representing the first silver coins struck after the Russian Revolution, are attractively packaged in a custom display holder. The coins in this set will grade Fine-12 or better.

Set II ..... $29.50

(Continued from preceding page)

## SET III U.S.S.R. Second Silver Coinage (1924-1931)

After the Revolution of 1917, the country became known as the Russian Soviet Republic. Even after the Revolution, considerable unrest remained both within the Russian Soviet Republic and along its borders with neighboring countries, particularly Mongolia and Poland. Finally in 1923, the fighting had practically ceased and life within the Russian Soviet Republic had settled to near normalcy. During that year, the country assumed its present name of the Union of Soviet Socialist Republics (U.S.S.R.). This, of course, necessitated a change in the coinage.

These coins were struck from 1924 to 1931. No silver coins were struck for regular circulation after 1931. The size and fineness of the coins in this set are identical to those of Set II. The One Rouble in this set is scarce as it was issued only in 1924! Included are these coins:

| DENOMINATION | SILVER FINENESS | DIAMETER |
|---|---|---|
| 10 Kopeks | .500 | 18 mm |
| 15 Kopeks | .500 | 20 mm |
| 20 Kopeks | .500 | 22 mm |
| 50 Kopcks | .900 | 27 mm |
| One Rouble | .900 | 34 mm |

Each coin in this set will grade Fine-12 or better.

Set III . . . . . $22.50

# COINS WITHDRAWN FROM CIRCULATION

Each of the coins offered in these Russian/Soviet silver type sets was withdrawn from actual circulation many years ago by the Soviet banks. Therefore, they are true collector's coins as no more are to be found in circulation in the U.S.S.R.! We have carefully selected the finest coins made available to us for inclusion in each set. We guarantee all pieces to grade at *least Fine-12*, but *most will be better!*

# RECENT U.S. PROOF SETS

Since 1968, *all* U.S. proof coins have been struck at the San Francisco Mint. Unlike the earlier sets produced at Philadelphia, these sets are mounted in hard sonically sealed plastic holders which provide maximum protection for these specially struck collector's coins.

These make ideal gifts for your children, nieces, nephews, etc., as well as important additions to your own collection.

# THE RARE 1894-S MINT STATE MORGAN...

## Available from Paramount at a Price YOU can Afford!

The 1894-S with a mintage of just over a million is one of the rarest Morgan Dollars in Mint State. In Jim Osbon's *Silver Dollar Encyclopedia,* it is noted that "heavy melting decimated the issue and most of those which escaped the melting pots were widely circulated." Even many "old-time" collections lack this key date in Mint State.

Paramount's regular price for a Mint State 65 specimen is $360. Thanks to the acquisition of a large collection, we have about a dozen specimens to sell at the special price of only $325. Be careful not to confuse these MS-65's with the lower priced, *lower quality* MS-60's offered elsewhere.

Remember, too, Paramount sells more quality Silver Dollars to collectors than anyone! There must be a reason we sell more! Order your 1894-S today and see for yourself.
